

**NEW Twin Blade Cutting System**

**Little Brother -125MM/OR 5inch Package**

- 1 x **TWIN BLADE** Little Bro model @ 5500rpm
- 1 x pair of tungsten blades (installed)
- 1 x hard case with handle
- 1 x Lubricating System (installed)
- 1 x 6 pack of lube sticks
- 1 x wrench with blade locking key attached together

Only \$350 + gst

This unit runs @ 5500 rpm ideal for Metal cutting. Cuts all metal and can go as deep as 10mm if used as directed - metal cutting is its primary job and cuts most other materials, Blades used properly give the same as 60 to 70 1mm metal cutting discs =NO depth loss

**SAFETY FIRST WITH - NO KICK BACK!**

**No sparking-All Metal is touchable direct**

**after cutting** The Twin Blades & Lube system removes almost all the friction, With 1<sup>st</sup> blade going clockwise and the 2<sup>nd</sup> blade going anticlockwise. The secret is to apply No pressure/force when cutting as this slows down rpm-wearing blades quicker. Let the weight of the unit push itself through the material you're cutting

**Big Brother -155MM/OR 6&1/8th inch Package**

- 1 x **TWIN BLADE** Big Brother model @ 4500rpm
- 1 x pair of tungsten blades (installed)
- 1 x hard case with handle
- 1 x Lubricating System (installed)
- 1 x 6 pack of lube sticks
- 1 x wrench with blade locking key attached together

Only \$450 + gst

This is the 155mm blade system. The rpm is lower @ 4500rpm so this model you can't cut as deep as little brother. Used as directed this model will cut metal sheet up to 7mm. Big Brother gives you more depth in, wood - plastics - etc. (This is the model we cut the car in half with - shown in the TV ad which only took 16 mins?)

**SAFETY FIRST WITH - NO KICK BACK!**

**REPLACEMENT BLADES & LUBE STICKES**

- LITTLE BRO - 125mm A pair of Blades cost \$80 + gst
- BIG BRO ----- 155mm A pair of Blades cost \$90 + gst
- LUBE STICKS - packs of 6 sticks cost \$3. + gst
